In doing so, it is proper I should make known the principles it will maintain, and the policy it will advocate.

It will support cordially and earnestly the principles of the Democratic party of the United States it does not propose to be the organ of any Depart ment of the Government, except in so far as an independent maintenance of the doctrines of that party may represent its opinions and express its views.

It will not be ambitious to commend itself to the people by a blind flattery of their rulers. It will seek public support by the bold avowal of the sentiments which are common to the genuine Democracy of the Union, and by the condemnation of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United States.

The Messrs. Heidsteck & Co., as set forth therein, justly claim to be alone enabled to send to this country the genuine Heidsteck & Co. Champaigne, under the same name and style as originally introduced into this market, now nearly thirty years ago, they being sole proprietors of all the identical vineyards, cellars, &c., which the founders and originators of this celebrated brand had owned.

Such being the fact, we need not dwell upon the superior quality of their Wines, the reputation of the same among the American public being already identified with unsurpassed excellence.

We beg particularly to notice that their brand still bears the same name of Heidsteck & Co., in full, by which it first became so favorably known, being thereby easily distinguished from other similar marks which have since appearad.

WOOD GAS .- CAUTION. BE it known that I, the subscriber ob-tained letters patent in December, 1851, for an apparatus for the destructive distillation of wood, and the making therefrom of tar or pitch at wood, and the making therefrom of tar or pitch at pleasure, and gas; and that in the judgment of competent persons the invention of an appartus recently patented by W. D. Porter cannot be used by him or any other person without infringing my said patent. And, further, that what is patented by asid Porter rightfully belongs to me, as I expect to prove ere long before the United States Patent Office; and, further, that the use of said Porter's invention involves also a process which I am now claiming before the United States Patent Office, and which has been adjudged to be patentable to the first inventor thereof, and which said W. D. Porter has formally disclaimed, as appears upon the public records of said office, of which an official copy is hereto annexed, and also a copy of his claims.

FIRE AND BURGLAR PROOF SAFES.

The subscriber has on exhibition at the Smithsonian Institution, two of bis improved Iron Safes. The one made of tough wrought bar and plate Iron, lined with chilled or case hardened inton, secured with an inner iron grating of two inch bar from riveted together, the whole put to gether with heavy screws or nuis upon the inside; not, however, passing through the outside plate. The frame or corner bars are made of angle iron; not a rivet or screw upon the outer with a particular contrivance. This claim, as given below, and in which the perforated diaphragm is the saving clatter in the good sense of the Patent Office if such a claim or right had been granted, it would forbid every coal-kiln and charcoal manufactory in the country.
